

## **Member Spotlight – Mirol Wells**

### **Personal Facts**

I have worked in the Construction Industry since she was 17 years old. I started in high school working the Cooperative Office Education Program (COE) in which you were trained in clerical skills. Your agenda was, you went to school ½ day and worked ½ day. We were placed with various employers including private industry, the city & state. My first job was scheduled to continue from September of that year until June of the next year. I ended up staying with that employer for 23 years. Since that time I have enjoyed working relationships that enhanced my career with such fine employers as Dunlop & Johnston where I learned the fine art of General Contracting, Project & Construction Services which guided me through the world of Construction Management, and now I am working with R.L. Hill Construction management which has provided me the opportunity of working joint venture with Gilbane Construction which has exposed me to an even higher level of construction overseeing Program Management at a local community college.

My immediate family consists of my son (Lamont) and my granddaughter (Simone). Also, my church is a very important part of my life. All in all, I am very pleased with the opportunity's I have been provided both in my personal & professional lives.

### **Professional Facts**

Mirol has been a part of the R.L. Hill Management team since March of 2009. She is currently working as a Project Administrator with a team that is overseeing 200 million dollars of construction for Cuyahoga Community College.

R. L. Hill Management is primarily in business to provide its clients with general contracting and construction management services. Its primary clients include but are not limited to banks, schools, and hospitals. Some of our noticeable clients include Key Bank, University Hospital, Metro Hospital, Cleveland Clinic, Case Western University, Cleveland State University, and Cuyahoga Community College.

R. L. Hill Management, Inc. was established in 1998 and is located in Bedford Ohio. It provides clients with construction management and administrative services as well as general contracting and carpentry services. Currently the company employs 8 full time staff and one part time. The staff consists of one working foreman, one superintendant, two project engineers, one project administrator, three carpenters, and one office manager. Our project capacity ranges from \$5,000 to \$3,000,000.

The unique strengths of R. L. Hill Management, Inc. lies with defining and understanding what needs to be done to succeed and taking advantage of the opportunities that they have been given.

Based in northeast Ohio, R. L. Hill Management is experienced in every phase of construction. This enables us to successfully manage your project from conception to completion. Our ability to communicate effectively combined with our experience in this industry is a real asset.

R.L. Hill Management is comprised of hardworking professionals who have successfully built and managed construction projects.
