

**NAWIC
CLEVELAND CHAPTER #156**

presents its first

SKIRTS AND DIRT

Cleveland Chapter #156 is introducing its first “Skirts & Dirt.” This event will be held for members and their families on Saturday, June 12, 2010 at the Operating Engineers #18 Training Center located at 4675 Newton Road, Richfield, Ohio, 44286.

This first-time event will provide members hands-on experience operating various types of construction equipment. Our members have a diverse occupational background – some have never even been on a job site and therefore have never operated a piece of equipment. Members of Operating Engineers Local #18 will be there to lend a hand or to teach our members the ins and outs of equipment function. You can never say you haven’t operated any of these pieces of equipment again. I am sure that everyone who attends this event is looking forward to a few hours of fun and become educated on several pieces of equipment, plus actually operate the equipment.

The 9 AM session will be for members and adults. Children are welcome to attend the second session at 11 AM. It does not matter the age of the child, if they can sit on mom and dad’s lap that is fine. The Operating Engineers have presented this type of event for thousands of parents and children in the past. This event will be held inside their large training center, so even if it rains, the event will still be held. There is no cost to attend and a waiver of liability will need to be signed. A waiver will be sent to you after signing up. Registration is necessary so that the Operating Engineers can have proper staff to handle our group.
