

MEMBERSHIP FACT SHEET

The membership committee plays a vital role by coming up with ways to increase and maintain chapter membership. Once members are recruited, our responsibility does not stop there. We must develop and retain them by providing information and education about NAWIC, encourage participation in the NAWIC Education Foundation (NEF) programs. We initiate members and continue to recognize them and their employers and encourage involvement as soon as possible. A mentoring program has also been established for members to show the ropes to our newest members.
